

FOLIASCREEN®

CHANGE THE WAY YOU FEEL

VISTAFOLIA

Vistafolia® is not simply a more cost-effective and zero maintenance alternative to a real green wall (although both these statements are true). Vistafolia® was created to solve the problem of greening spaces where real plants cannot grow.

**RESEARCH AND DEVELOPMENT
COMMIT US TO EXCELLENCE**

Our success depends on innovation, which means constantly improving on product design and durability, anticipating new needs for natural looking environments and creating seamless and better interactions between our green walls and our customers.

The Vistafolia Panel

The Vistafolia Panel is a core component of the Foliасcreen. Originally created as a standalone product, every leaf of every plant has been designed with the emphasis on quality and realness. By combining different tones, colours and shapes, every panel that adorns a Foliасcreen has the ability to make you think you're looking at natural planting.

KEY FEATURES

- ✓ Standard size of 800mm x 800mm / 31.5" x 31.5"
- ✓ Durable panels manufactured to ISO 9001
- ✓ UV Stable & Fire Rated with international test certificates
- ✓ REACH and RoHS compliant
- ✓ Easy to Install
- ✓ Sixteen different hand-designed plant varieties
- ✓ Customisable with Colour & Texture Boxes (see p.54)
- ✓ Recyclable

Paul Alder leads Vistafolia® and has 25 years' experience in the landscape industry. He has won multiple awards including 12 national awards, 5 Chelsea medals including the highly coveted Gold, and a Gold medal at Hampton Court Flower Show.

A personal *touch*

"As a multi-award winning horticulturalist with 25 years' experience of building gardens for prestigious commercial and residential projects, I realised there is a demand for a flexible system that creates the look of a beautiful vertical garden wall planting without the hassle of using real plants that require natural light and ongoing maintenance."

Committing to a *greener future*

We are proud to be partnered with the UK government, Innovate UK & The University of Surrey. Together, we are leading the field in bio-based polymer research. By purchasing our products, you are participating in our push for a better, cleaner future, as we reinvest our profits into developing sustainable and renewable products for the future.

Dr Elham Ketabchi is leading the project which aims to establish a new product formula that involves environmentally friendly constituents.

Different heights of planting and varying tones of green give the illusion of new growth

Why Foliascreen?

IT'S MODULAR,
VERSATILE &
RECONFIGURABLE

Industry Leader

Say goodbye to traditional office screens and become a part of the global green wall revolution.

Versatile

The Foliascreen is at home in any environment and can be adapted to your individual needs.

Solutions

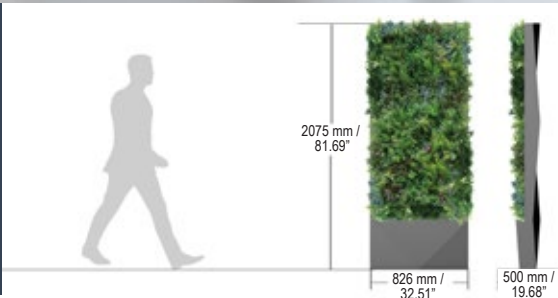

The benefits of the Foliascreen are varied and wide-reaching. From improving aesthetics, creating a better overall working environment and providing a cost-effective way of creating new areas within any space.

GEOMETRIC DESIGN IN TWO DISTINCT SIZES

10

**FULL SIZE
MODULE**

Research has shown that having a work environment that is visually appealing can increase productivity and staff morale, and nothing could add a more sophisticated style in your office than the Foliасcreen.

**STANDARD SIZE

STUNNING NATURALISTIC LOOK

Having plants present in your office has been linked in studies to a wealth of attributes, from the potential to increase memory retention by up to 20%, to reducing the likelihood of stress-related depression. The amazing benefits of plants should not be underestimated, and more and more businesses are starting to reap these rewards by greening their surroundings. Even hospitals have shown that realistic decorative foliage can decrease recovery times in patients.

INTUITIVE DESIGN

The perfect solution for screening and dividing spaces.

ACOUSTIC PROPERTIES

Clarity of thought is key when it comes to productivity. Use the Foliascreen to block out that distracting background noise and focus your mind on the task at hand.

INCREASE PRODUCTIVITY AND WELL-BEING

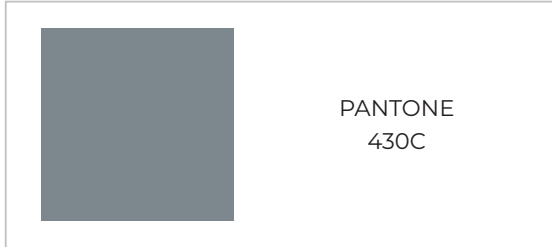

Colour Swatch

STANDARD COLOUR

CUSTOM COLOURS

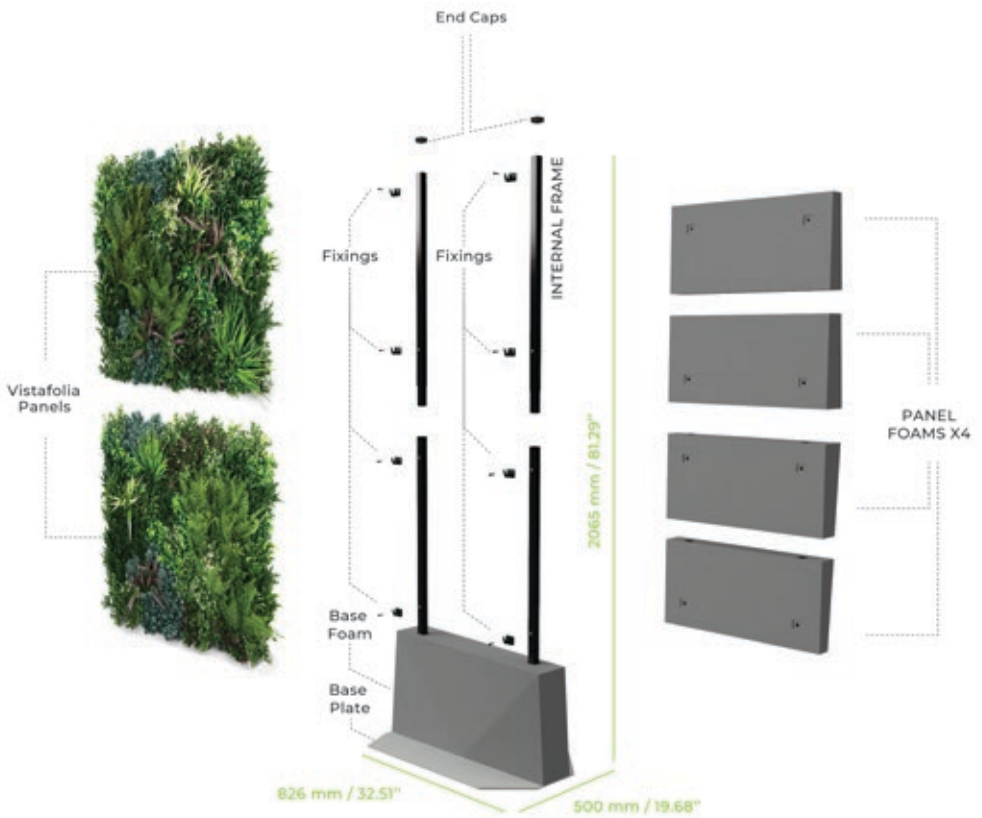

The Foliасcreen comes in a light grey colour, which will suit almost any environment. However, if you've got a different colour in mind for your project, why not get in touch with us and we'll discuss your options.

NOTE: MOQ's and lead times will apply

BENEFITS

24

Enhances the Interior Environment

Build an atmosphere that means your colleagues and your customers get the very best from you.

Zero Maintenance

Bring the great outdoors indoors, without any unnecessary maintenance.

Modular & Reconfigurable

The Foliascreen comes with castors that allow the partition wall to be moved with ease, requiring minimal effort to re-design your space.

Improves well-being

The Foliascreen is a way implement biophilic design in your environment. Biophilic design has been found to support cognitive function, physical health, and psychological well-being.

Sound Absorption Qualities

You haven't got time to have everything repeated, so block out those noisy distractions.

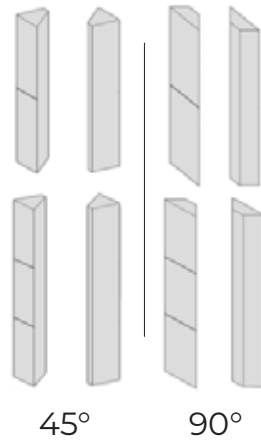

COST EFFECTIVE SOLUTION

Business is all about returns. The Foliascreen might just be the key to improving your bottom line.

UNLOCK THE VERSATILITY OF FOLIASCREEN WITH 45° AND 90° CORNER UNITS.

Simply attach the 45° or 90° upper and lower support corner unit to the end of the Foliасcreen with the built-in magnets to create booths and quiet spaces in your workplace.

CONFIGURATION PLAN EXAMPLES

The Foliasscreen is versatile enough that it can be easily positioned to segregate spaces and create rooms within rooms, all while looking stunning and creating a relaxed atmosphere.

Create straight dividing walls and corridors

30

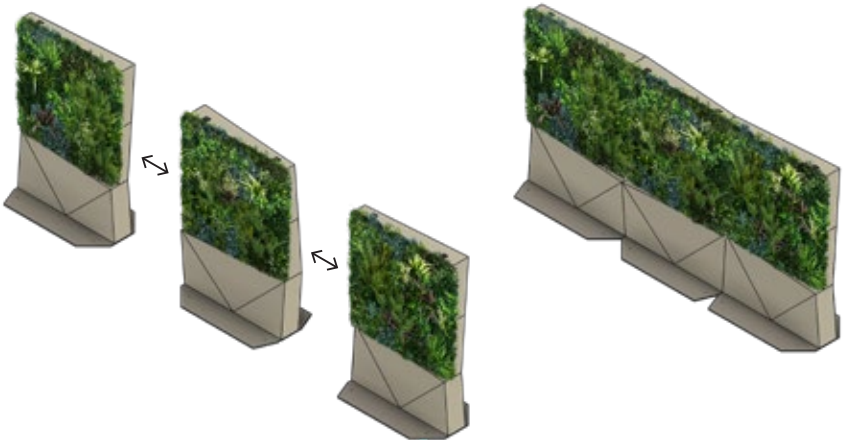

The modules can be configured to suit virtually any application. They can be utilised as stand-alone modules, or combined to give a bold, visually appealing finish to your space. The simple, slot-together install also means that you can add additional modules at a later date if you wish.

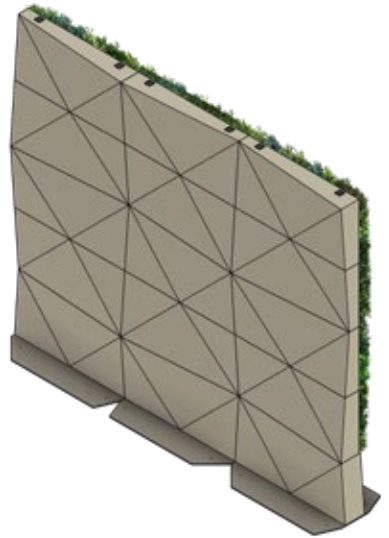

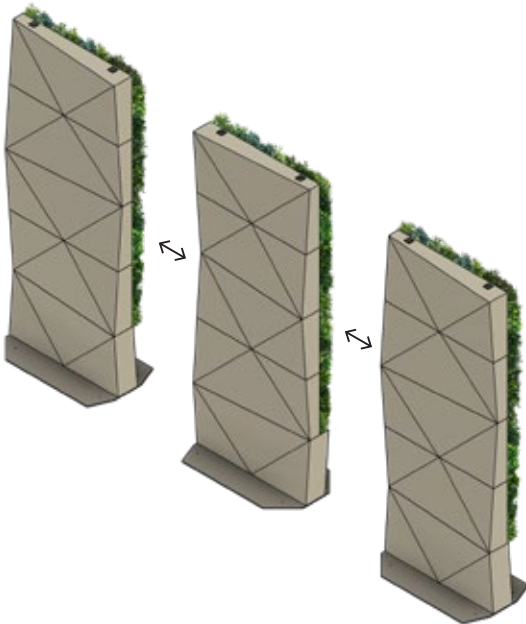

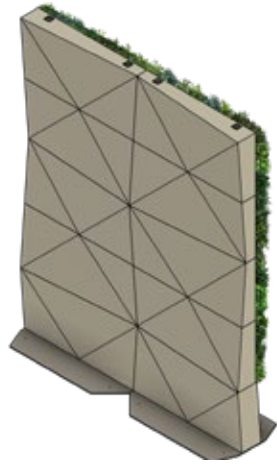

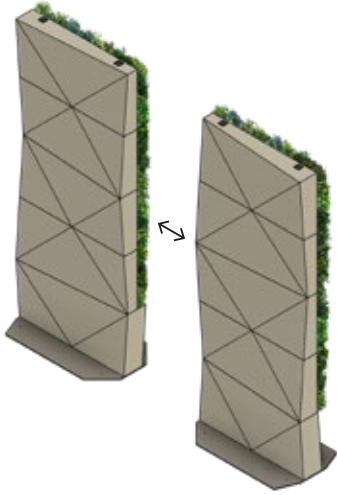

FULL HEIGHT

STANDARD HEIGHT

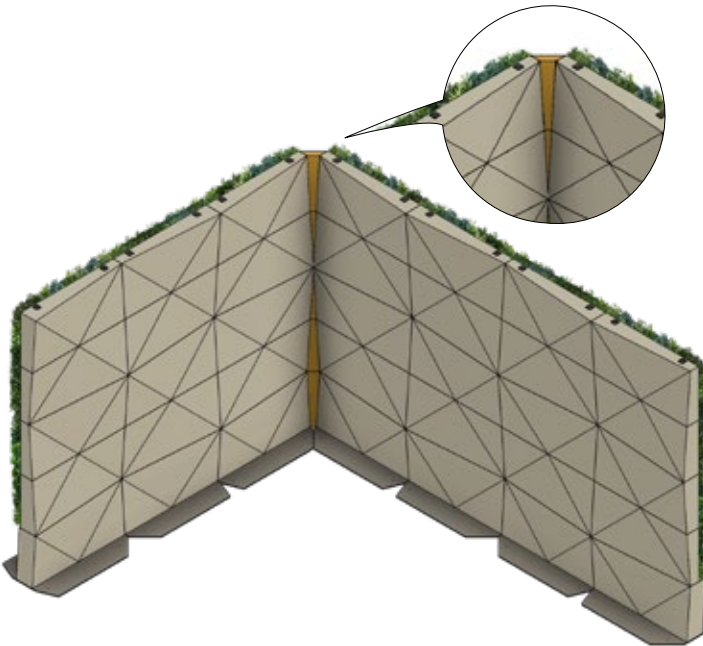

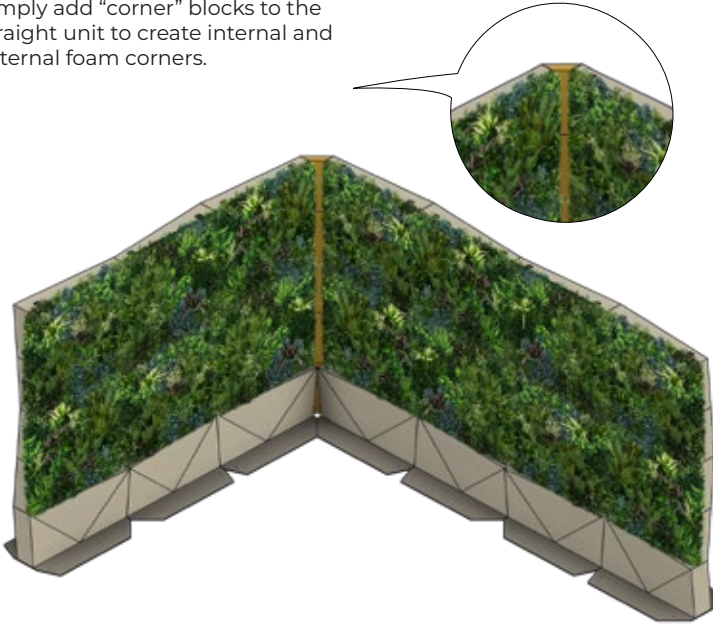

FULL HEIGHT

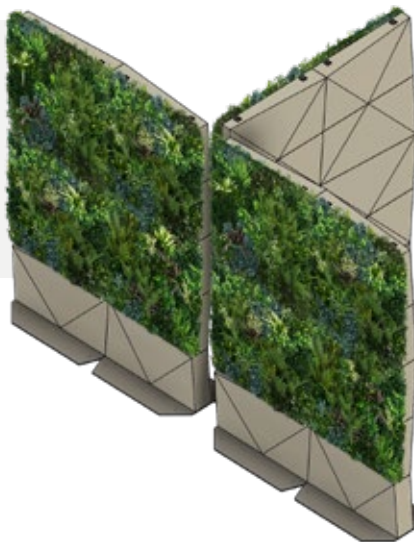

“L” DIVIDER

Simply add “corner” blocks to the straight unit to create internal and external foam corners.

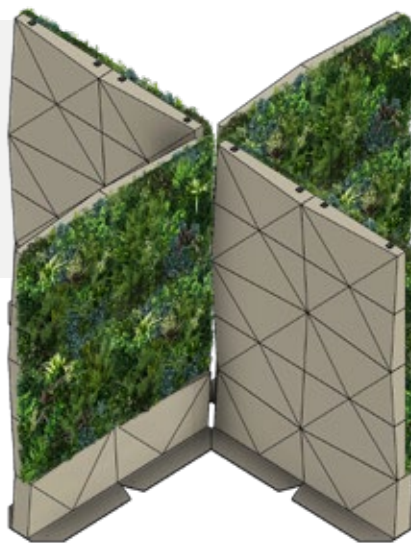

“T” DIVIDER

Create junctions to divide the space into multiple areas.

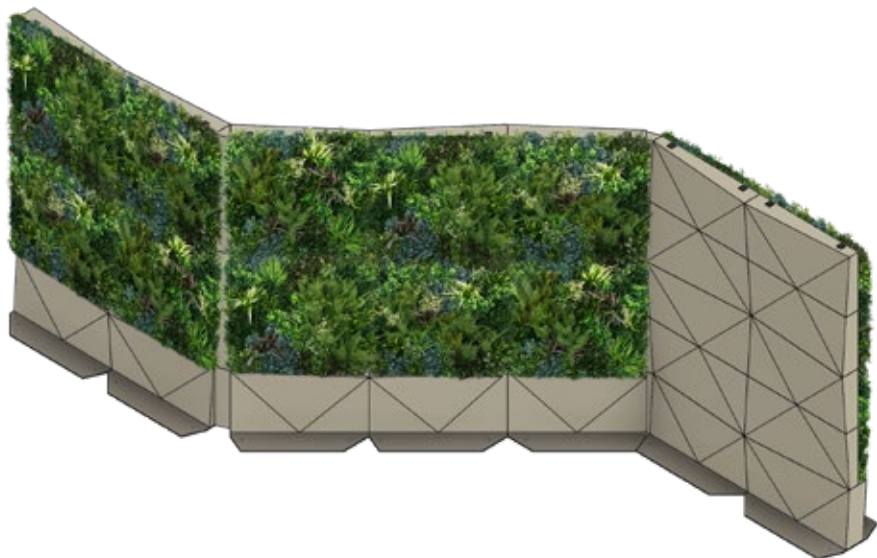

**“X” DIVIDER**

Branch off in all directions and create any shape that your layout requires.

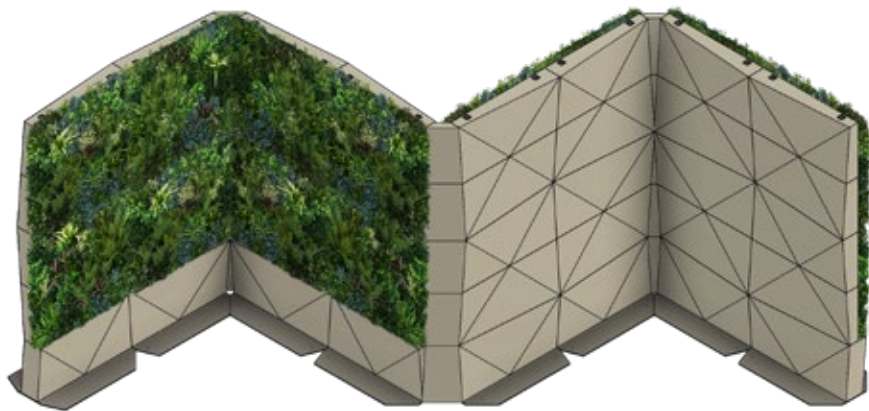

45° DIVIDER

Change directions without the need for right angles, and create new and unique shapes.

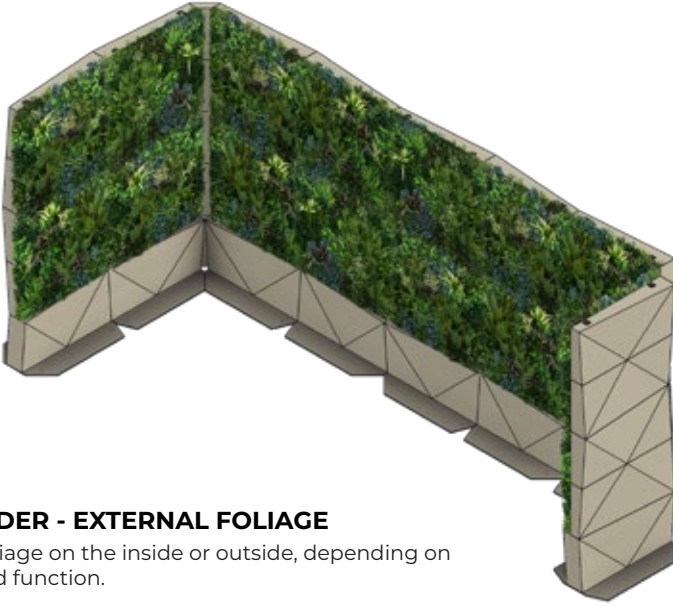

90° WORK BOOTHS

Zig Zag patterns create corners of space that can be utilised for workspaces.

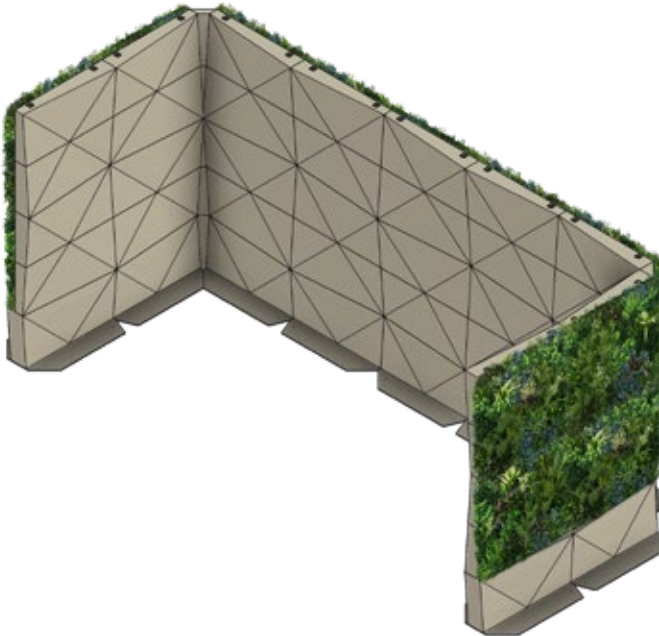

“U” DIVIDER - INTERNAL FOLIAGE

Surround and separate areas to create even more new spaces and bring a sense of order.

“U” DIVIDER - EXTERNAL FOLIAGE

Put the foliage on the inside or outside, depending on the desired function.

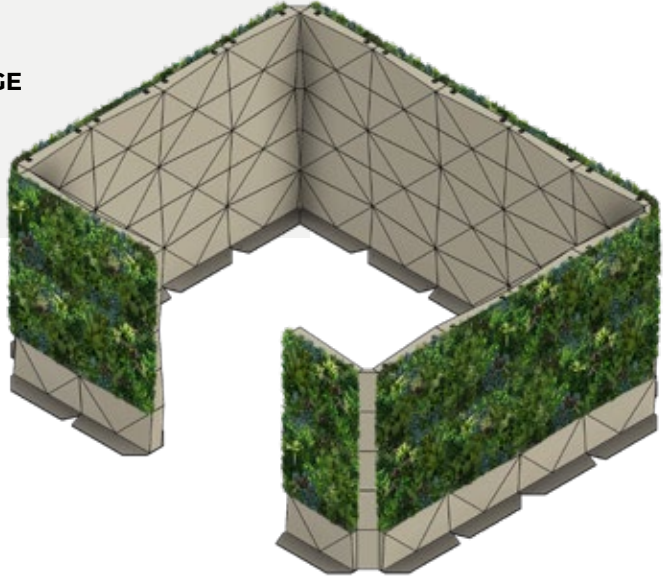

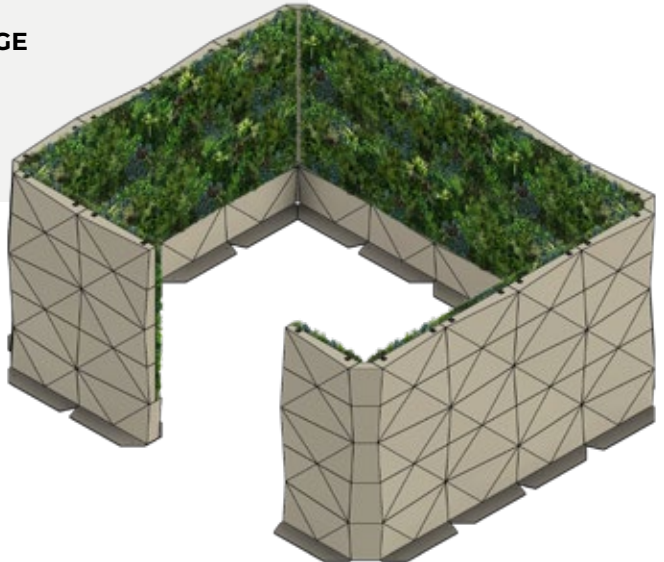

MEETING ROOMS

90° EXTERNAL FOLIAGE MEETING ROOM

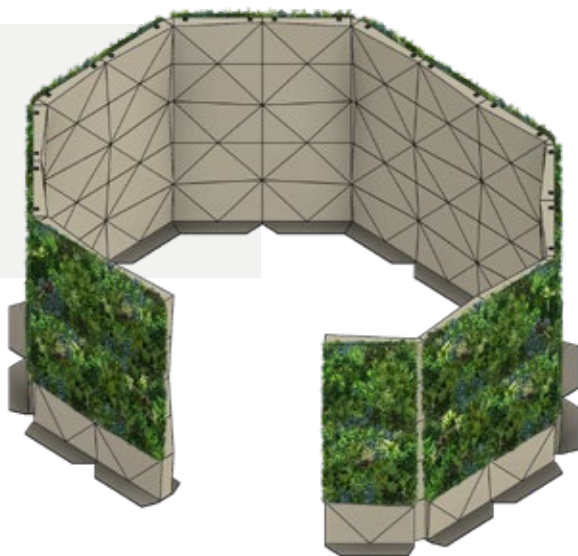

Create meeting spaces of different lengths.

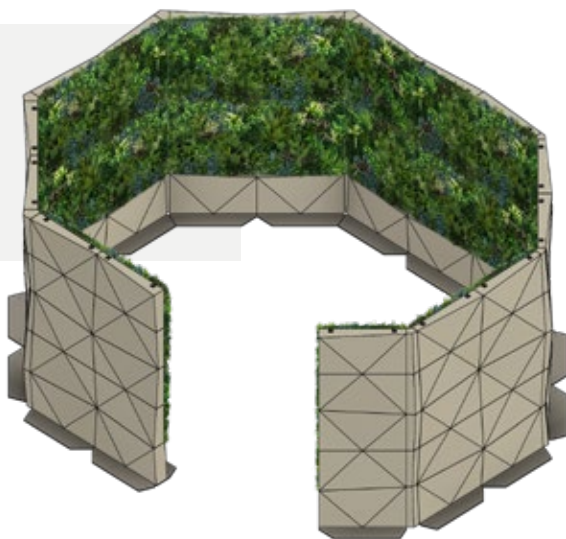

90° INTERNAL FOLIAGE MEETING ROOM

**45° EXTERNAL FOLIAGE
MEETING ROOM**

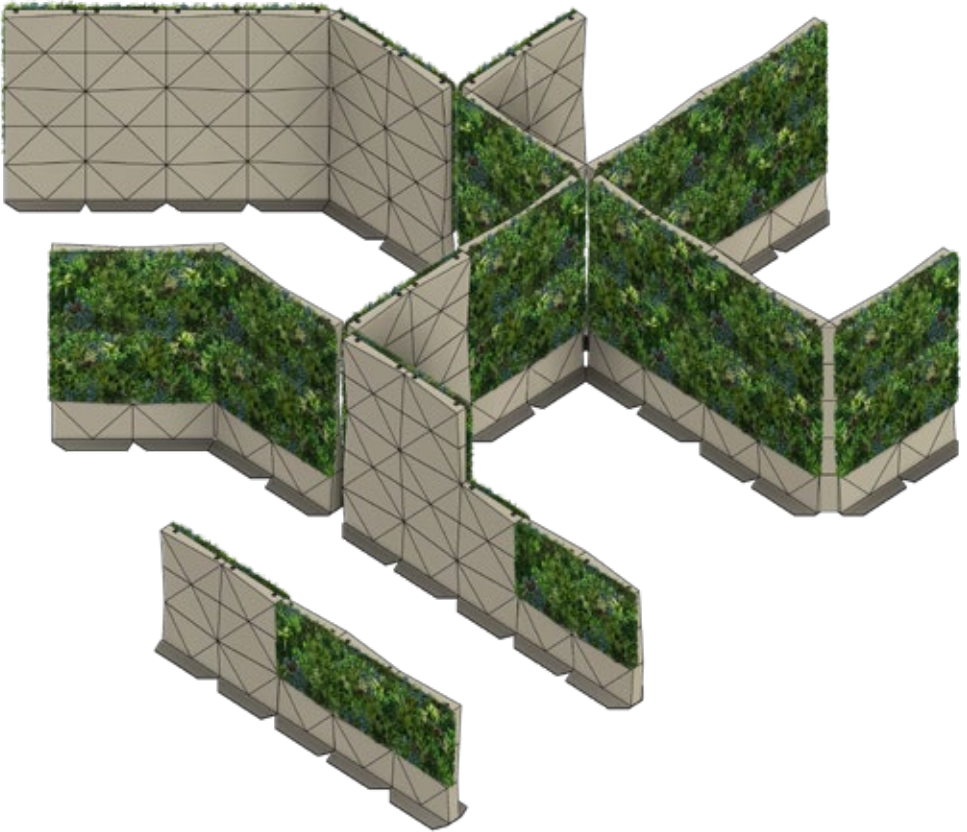

**45° INTERNAL FOLIAGE
